

New Gen **12-12-6 Oilseed Pressor[®]**

**Innovative removable gearbox
features a reversible shaft for quick
and easy clearing of lock-ups.**

- 300 HP drive motor provides superior throughput — over 100 tons per day with 5% – 7% residual oil, depending upon customer needs.
- New in-line design allows easy service access all around the press and drive components. Under most circumstances, drivetrain maintenance can be performed by plant personnel.
- Operators can change shaft speeds economically with a simple sheave change-out. Select from a wide range of speeds to optimize for variable production requirements.
- The 12-12-6 configuration features a space-saving, compact footprint.
- Like all Dupps Pressors, you can depend on maximum uptime and rapid-response service and support.
